Cloud Computing

❑ The Cloud Computing is an integrated software solution that ensures the **availability of the resources** required to operate, maintain and monitor virtual DC from all technical aspects (**Processing, Operation, Storage, Networking, Security... etc.**) without manual intervention from the SP or ISP

Software Defined DC (SDDC)	Cloud Infrastructure	SIEM
Storage Virtualization	Operations	System Information
Network & Security Virtualization	Orchestration	Event Management
Compute Virtualization	Automation	
Programmatically defined DC Management	Log Management	

www.nans.gov.sy

GSN

- ❑ An internal Government Network isolated from the Internet
- ❑ L2, MPLS/VPN
- ❑ Affiliated Bodies: **110**
- ❑ Services:
 - ✓ Mahrukat
 - ✓ Reserve Reservation
 - ✓ GOV Mail, SyrGOV
 - ✓ GOV Storage
 - ✓ E-Transaction
 - ✓ Video Conference

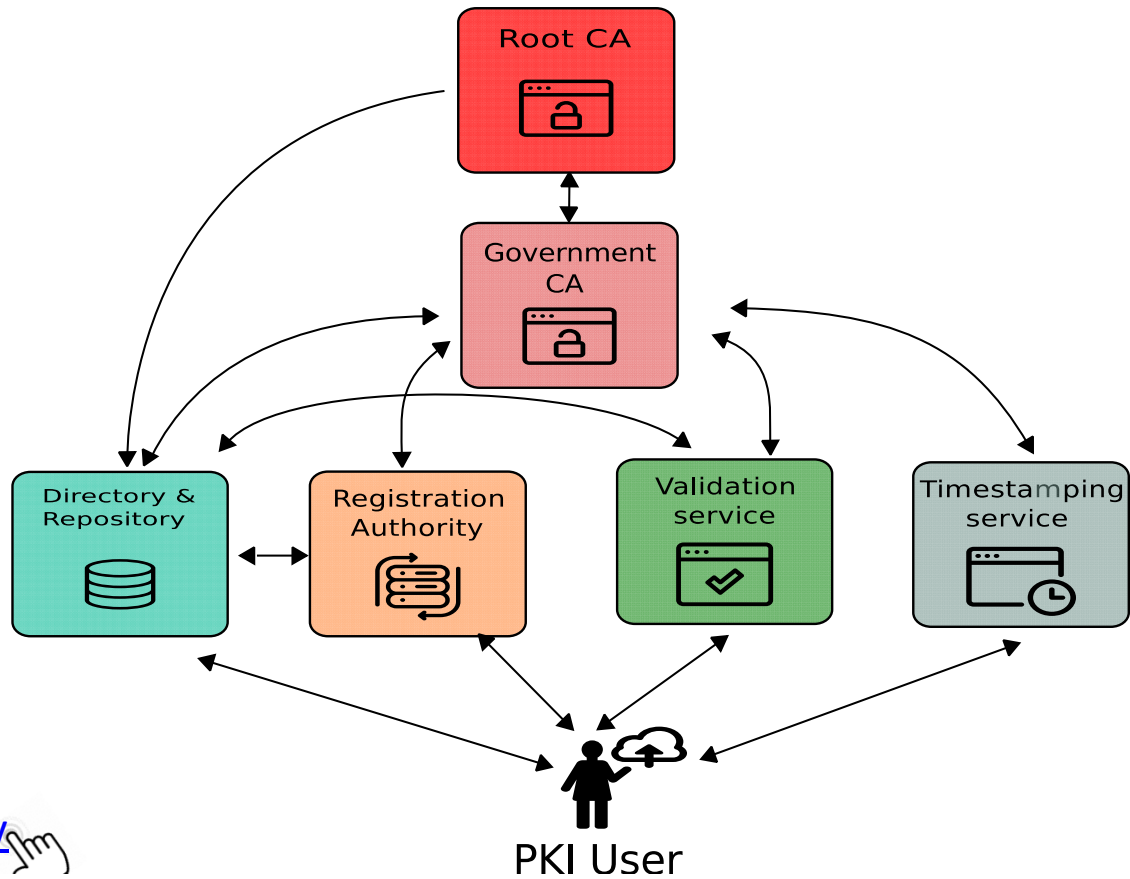

PKI

- ❑ Is a set of roles, policies, and procedures needed to create, manage, distribute, use, store, and revoke **digital certificates** and manage public-key encryption
- ❑ Affiliated Bodies: **208**
- ❑ Active Certificates: **609**
- ❑ SSL Certificates: **91**

Strategies

4.0

Broadband Strategy

Vision

Syrian Society connected to the Internet with high speeds

Targets

Till 2026: 80% (Fix Line/Family No), 40% FO Cable/xDSL No

Port Percentage from IGW: 500 kbps

Port Percentage from PDN: 2 mbps

Digital Transformation Strategy

01

INTEGRATION: Infrastructure integration to data & application

02

CONFIDENACE: Raise the level of the Citizen's confidence in the government, and in electronic operations

03

DEVELOPMENT: Promote economic and social development

04

OPENNESS: Promote transparency and community participation (citizen, non-governmental organizations, private sector), Open Data

Cyber Security Strategy

Information Security policy in 2014

Encryption Policy in 2020
